INCREASE THE PRODUCTIVITY OF YOUR COMBINE WITH MACDON FLEXDRAPER HEADERS

MacDon FlexDrapers®

Models available for most combines – from 30’ to 45’

Designed to provide smooth, consistent “headfirst” feeding to the combine

Reel is easily adjustable to match harvest conditions

Hydraulically adjusted reel fore-aft and header tilt functions allow easy, on-the-go changes

C-shaped cutter bar promotes smoother crop flow and short transition from cutterbar to the draper

New hydraulic system provides increased side draper speed with greater capacity and reliability

Voices FROM THE FIELD

“Our MacDon Draper gives us the ability to run faster ground speeds. It feeds smoother and quieter than auger headers and you can change the angle of the cutterbar.”
